CJSC Stroytransgaz to Reconstruct Nevinnomissk Compressor Station

CJSC Stroytransgaz has been awarded the «Gazprom Tsentrremont» LLC contract to reconstruct Nevinnomissk Compressor Station in Stavropol region.

The project will be implemented in two phases before 2015. Under the contract CJSC Stroytransgaz will build new compressor section equipped by six gas compressor-units with total capacity of 60 MW. Besides the company will dismantle old sections, replace on-site equipment, perform modernization of diagnostic systems, gaseousness, firefighting and concomitant infrastructure.

Nevinnomissk Compressor Station is included in one of the oldest Russian gas transport system «North Caucasus - Center», which was putting on stream starting from 1956 till 1966. The works will be performed in confined area including crossing and rising of active communication-, electric-, heating- and gas-supply networks

###

CJSC Stroytransgaz is one of Russia's leading construction companies that provides Engineering, Procurement, Construction and Maintenance services related to large-scale infrastructure projects in the global oil and gas industry. The company has been part of such projects as ESPO, BPS-2, the Bovanenkovo-Ukhta pipeline, and the Southern Corridor.

The project of Nevinnomissk Compressor Station is a part of «Gas transport system's «North Caucasus - Center» compressor stations reconstruction at the territory of Privolnoe-Mozdok». Five compressor stations will be reconstructed under the contract. Gazprom is the project's investor.
