

PRESS RELEASE

January 22, 2015

Stock of orders of CJSC Stroytransgaz for gas pipeline construction exceeds 1,000 km

As a part of the Russian Federation Regional Gasification Programme CJSC Stroytransgaz will fulfill a range of construction works for inter-settlement gas pipelines in the Omsk and Kaluga regions, and in the Khabarovsk Territory, total length more than 289 km. Therefore, the stock of the company's orders for the construction of gas distribution systems, which earlier made 700 km, now exceeds 1,000 km.

The customer is Gazprom investgazifikatsiya LLC; the work contract has been received by means of an open request offer.

As a part of the contract CJSC Stroytransgaz will build gas pipelines, total length 213.57 km, pipe diameter 63-225 mm, in the Kaluga region. In the Omsk region there will be built 45.58 km of inter-settlement gas pipelines, diameter – 63-315 mm. In the Khabarovsk Territory the total length of built inter-settlement gas pipelines will make 29.92 km, diameter – 63-630 mm.

The works are to be completed in 2015-2016.

At the moment CJSC Stroytransgaz is performing gasification works in ten constituent units of the Russian Federation: the Kaluga, Tomsk, Astrakhan, Tambov, Irkutsk, Novgorod and Omsk regions, the republic of Udmurtiya, the Khabarovsk Territory and the Yamalo-Nenetskiy autonomous district. The company also deals in the construction of gas distribution stations and gas pipeline branches in the Volgograd region.

The most major gasification projects are implemented in the Tambov region; total length of gas pipelines makes more than 258 km. They consist of 30 sites scattered on the territory of the region.

CJSC Stroytransgaz implements inter-settlement pipe-laying works as a part of the Russian Federation Regional Gasification Programme that enhances the quality of people's lives, provides conditions for new plants, development of small and mid-sized business", **remarked Vladimir Kartashyan, General Director of CJSC Stroytransgaz.**

CJSC Stroytransgaz is one of the leading construction companies of Russia implementing high technology "turn-key" oil and gas projects; a construction partner of the Eastern Siberia – Pacific Ocean oil pipeline, Baltic Pipeline System 2, the Bovanenkovo – Ukhta gas pipeline system, the Southern Corridor gas pipeline system including the compressor station Kazachya, and the Power of Siberia gas transportation facilities.

CJSC Stroytransgaz is an active partner in gasification programmes in the central part of Russia, in the north-west of the country, in the Povolzhye region, Western and Eastern Siberia, as well as in the Far East.
