CJSC Stroytransgaz wins contract for construction of gas measuring station as part of South Corridor

CJSC Stroytransgaz has won a general contract from Gazprom invest LLC for the construction of gas measuring station Salskaya of the South European gas pipeline. The works will be completed by the end of 2015.

The contract has been received as an open invitation to tender where the application of CJSC Stroytransgaz has been considered the best.

The contract implies the execution of a number of construction works: foundation works, steelwork and pipeline erection, pipeline electrochemical protection, electric networks, as well as land development, soil reclamation, and the construction of 1.1 km of automotive access roads.

CJSC Stroytransgaz is currently implementing works as a part of the South Corridor gas pipeline system. The company is the general contractor for the construction of the compressor station Kazachya and the linear part of the 445-km-long main pipeline.

CJSC Stroytransgaz is one of the leading construction companies of Russia implementing high technology “turn-key” oil and gas projects; a construction partner of the Eastern Siberia – Pacific Ocean oil pipeline, Baltic Pipeline System 2 (BPS-2), the Bovanenkovo – Ukhta gas pipeline system, the Southern Corridor gas pipeline system including the compressor station Kazachya, and the Power of Siberia gas transportation system facilities.
